PROFILE

I am a recent college graduate who finished two undergraduate degrees at NC State in December of 2011. I studied Media Communication and Theory, specifically focusing on Interactive, Social Media and its relation to more traditional Media types. I also studied Literature, Writing, Spanish, and International Studies, concentrating in Film Critique and Theory. I love to write, design, animate and code. I have worked in Web Design since 2006, and my experience with HTML5, CMS Web Creation, Adobe After Effects, Communication and Design principles, and my transmedia focus set me apart, and my love for art and people motivate me to create and maintain healthy relationships and great work.
